

DATA SHEET

3D Printing Adhesive for Nylon Filaments

55 mm x 37 mm

BRUSH

Helps to distribute the product

CAP

Protects the product and serves as an applicator

30 ML

1.01 FL. OZ

POWERED BY

3DLAC

MADE IN

SPAIN / EUROPE

GENERAL OVERVIEW _

3DNYLON is a specially formulated adhesive tailored for 3D printing with nylon filaments.* Its unique formula delivers a robust and enduring bond in nylon 3D prints, ensuring exceptional quality in your projects. This new adhesive offers excellent adhesion and helps prevent and mitigate warping, enhancing the overall printing experience.

FEATURES _

EXCELLENT
ADHERENCE

EASY
APPLICATION

PREVENTS

EXCEPTIONAL
DURABILITY

CLEANING
WITH WATER

IMPROVED
ACCURACY

PACKAGING _

Resistance of the container to heat:
<100°C

EAN

8 411322 250011

Caja: 6 piezas

HSCODE: 35069900

APPLICATIONS _

Using 3DNYLON when printing with nylon filaments is essential to enhance adhesion and prevent common issues like displacement and defects in the initial layers. Thanks to its unique formula and compact brush applicator, this innovative solution simplifies the 3D printing process and significantly elevates the quality and precision of prints. 3DNYLON becomes an unparalleled ally for achieving high-level creations with nylon filaments, ensuring exceptional results in every project.

INSTRUCTIONS FOR USE _

- 01 **CLEAN_** Make sure that the printing surface is clean.
- 02 **OPEN_** To open the container, press down and turn counterclockwise at the same time. This will unscrew the cap and release the safety mechanism.
- 03 **APPLY_** Use the provided brush to delicately apply a thin, uniform coating of 3DNYLON onto the printing surface. Ensure complete coverage over the intended print area, and allow it to fully dry before proceeding with the printing process.
- 04 **PRINT_** Once you've applied the adhesive, adjust the printing parameters to match your requirements and the specific nylon filament type you're using. Begin the printing process once your settings are configured.

RECOMMENDATIONS _

- Store in a cool dry place away from direct sunlight.
- After each use, be sure to keep the product hermetically sealed.

CAUTIONS _

- Do not ingest.
- Avoid use by minors.
- Avoid contact with eyes and skin.

*99% Compatible with pure nylon filaments or with a minimum composition of 95% Nylon (PA).
