

# SAFETY DATA SHEET

[In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended]

## Section 1: Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier  
Filament Spectrum Industrial PA6 CS20 FR V0
- 1.2 Relevant identified uses of the substance or mixture and uses advised against  
Relevant identified uses: filament used in 3D printers.  
Uses advised against: not determined.
- 1.3 Details of the supplier of the safety data sheet  
Entity responsible: Spectrum Group Sp. z o.o.  
Address: Parkowa 85, 05-806 Pęcice, Poland  
Telephone: +48 608 109 008  
E-mail address for a competent person responsible for sds: office@spectrumfilaments.com
- 1.4 Emergency telephone number  
112

## Section 2: Hazards identification

- 2.1 Classification of the substance or mixture  
Product is not classified as hazardous for human life and health and for the environment.
- 2.2 Label elements  
Hazard pictograms and signal words  
None.  
Hazard statements  
None.  
Precautionary statements  
None.  
Additional information  
EUH210 Safety data sheet available on request.
- 2.3 Other hazards  
The substances contained in the product do not meet criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation. The product does not contain substances included in the list established in accordance with Article 59 (1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1 % by weight.

## Section 3: Composition/information on ingredients

- 3.1 Substances  
Not applicable.
- 3.2 Mixtures  
The product contains technical carbon black [CAS 1333-86-4], which is not classified as hazardous to human life and health.

CAS number: 12767-90-7 EC number: 235-804-2 Index number: - Registration number: 01-2119691658-19-XXXX	hexaboron dizinc undecaoxide Eye Irrit. 2 H319, Repr. 2 H361, Aquatic Acute 1 H400 (M=1), Aquatic Chronic 2 H411	< 2,5 %
--	---	---------

Full text of each relevant H phrase is given in section 16 of SDS.

#### Section 4: First aid measures

##### 4.1 Description of first aid measures

**Skin contact:** wash the contaminated skin thoroughly with plenty of soap and water. Do not use solvents or thinners. Take off all contaminated clothing. If disturbing symptoms appear, consult a doctor. Do not peel solidified product from the skin. In case of burns, use cold water to relieve pain.

**Eye contact:** remove contact lenses. Wash the contaminated eyes with plenty of water for at least 15 minutes. Avoid powerful water stream – risk of cornea damage. If disturbing symptoms appear, consult an ophthalmologist.

**Ingestion:** do not induce vomiting. Rinse mouth with water. Never give anything by mouth to an unconscious person. If disturbing symptoms appear, consult a doctor, show the container or label.

**Inhalation:** if disturbing symptoms occur, consult a doctor. Remove to fresh air, keep the victim warm and calm.

##### 4.2 Most important symptoms and effects, both acute and delayed

**Skin contact:** possible redness, dryness, degreasing, contact with hot material may cause thermal burns.

**Eye contact:** possible redness, tearing, burning sensation, mechanical irritation.

**Ingestion:** possible stomach pain, nausea.

**Inhalation:** may cause irritation of respiratory tract and cause coughing and sensation of shortness of breath.

##### 4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thorough examination of the injured. Symptomatic treatment.

#### Section 5: Firefighting measures

##### 5.1 Extinguishing media

**Suitable extinguishing media:** carbon dioxide, extinguishing powder, extinguishing foam, water spray.

**Unsuitable extinguishing media:** water jet – risk of fire propagation.

##### 5.2 Special hazards arising from the substance or mixture

During combustion harmful gases and fumes consisting of carbon oxides, nitrogen oxides, sulfur oxides, metal oxides, hydrogen cyanide, phosphorus oxides and other harmful products of thermal decomposition may be produced. Do not inhale combustion products, it may cause health risk.

##### 5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. Do not let extinguishing water to reach drainage system, surface water and groundwater. Collect used extinguishing media.

#### Section 6: Accidental release measures

##### 6.1 Personal precautions, protective equipment and emergency procedures

Handle in accordance with good occupational hygiene and safety practices. Use personal protective equipment. Ensure that effects of the breakdown are removed only by qualified personnel. Ensure adequate ventilation. Granules spilled on the floor can cause a risk of slipping on smooth surfaces.

## 6.2 Environmental precautions

In case of release of large amounts of the product, it is necessary to take appropriate steps to prevent it from spreading into the environment..

## 6.3 Methods and material for containment and cleaning up

Collect mechanically. Collected material should be reused or treated as a waste.

## 6.4 Reference to other sections

Appropriate conduct with waste product – section 13. Personal protective equipment – see section 8.

## Section 7: Handling and storage

### 7.1 Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Use only as intended. In case of rubbing or friction, accumulation of electrostatic charges may occur. Accumulated electric charge can be transferred to the user and may be a source of ignition - use extreme caution when working with flammable materials.

### 7.2 Conditions for safe storage, including any incompatibilities

Store only in a cool, dry place protecting against weather (direct sunlight, frost, precipitation). Protect from sources of fire and naked flames. Do not store with incompatible materials (see subsection 10.5).

### 7.3 Specific end use(s)

No information about uses other than mentioned in subsection 1.2.

## Section 8: Exposure controls/personal protection

### 8.1 Control parameters

Product does not contain any components with occupational exposure limit values at working place. Please check any national occupational exposure limit values in your country.

Legal Basis: Commission Directive 2006/15/EC, 2000/39/EC, 2009/161/EC, 2017/164/EU, 2019/1831/EU.

### 8.2 Exposure controls

#### Appropriate engineering controls

Observe good occupational hygiene and safety practices. Do not eat, drink or smoke when using the product. Wash hands thoroughly before breaks and after work. Avoid inhalation of product dust. Provide effective local ventilation at workplaces and general ventilation.

#### Individual protection measures, such as personal protective equipment

The necessity to use and selection of appropriate personal protective equipment should take into account the type of risk created by the product, conditions at the workplace and the manner of handling the product. The personal protective equipment used must meet the requirements of Regulation (EU) 2016/425 and the relevant standards.

#### Hand and body protection

Use protective gloves and work clothes if a risk assessment indicates this is necessary (EN 374). Material for the gloves choose individually at the workplace.

#### Eye protection:

Use tightly fitting protective glasses if risk assessment indicates that it is necessary (EN 166).

#### Respiratory protection:

Under normal conditions of use is not required. In emergency situation, when exposed to high concentrations of dusts, appropriate respiratory protective equipment should be worn.

#### Thermal hazards

If contact with the hot product is expected, use heat-resistant gloves in accordance with EN 407 standard.

Environmental exposure controls

Avoid release of large amounts of the product to groundwater, drainage system or soil.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state:	solid/ granules
Colour:	black
Odour:	characteristic
Melting point/freezing point:	not determined
Boiling point or initial boiling point and boiling range:	not determined
Flammability:	non-flammable product
Lower and upper explosion limit:	not applicable
Flash point:	not determined
Auto-ignition temperature:	not determined
Decomposition temperature:	not determined
pH:	not determined
Kinematic viscosity:	not applicable
Solubility:	not determined
Partition coefficient n-octanol/water (log value):	not applicable
Vapour pressure:	not determined
Density and/or relative density:	not determined
Relative vapour density:	not determined
Particle characteristics:	not determined

9.2 Other information

No additional information.

Section 10: Stability and reactivity

10.1 Reactivity

Product is resistant to chemicals. Dust may form an explosive mixture with air, ignited by sparks or sources of ignition. See also 10.3-10.5.

10.2 Chemical stability

The product is stable under normal conditions of handling and storage.

10.3 Possibility of hazardous reactions

Avoid dust formation.

10.4 Conditions to avoid

Protect from direct sunlight, sources of fire and heat. Protect from moisture.

10.5 Incompatible materials

Strong oxidizers and strong basis.

10.6 Hazardous decomposition products

Nitrogen oxides, hydrogen cyanide, sulfur oxides, metal oxides, carbon oxides, phosphorus oxides.

Section 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Toxicity of components

hexaboron dizinc undecaoxide [CAS 12767-90-7]

LD<sub>50</sub> (oral, rat) > 3 500 mg/kg

LD<sub>50</sub> (skin, rat) > 2 000 mg/kg

LD<sub>50</sub> (inhalation, rat) > 2 mg/l

Toxicity of mixture

Acute toxicity

Based on available data, the classification criteria are not met.

Skin corrosion/irritation

Based on available data, the classification criteria are not met.

Serious eye damage/irritation

Based on available data, the classification criteria are not met.

Respiratory or skin sensitization

Based on available data, the classification criteria are not met.

Germ cell mutagenicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

STOT-single exposure

Based on available data, the classification criteria are not met.

STOT-repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

Information on likely routes of exposure

Routes of exposure: skin contact, eye contact, inhalation. See subsection 4.2 for more information on the effects from each possible route of exposure.

Symptoms related to the physical, chemical and toxicological characteristics

Hot product vapours may cause eye irritation. Contact with the hot product may cause skin burns.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

No data.

11.2 Information on other hazards

Endocrine disrupting properties

The product does not contain substances included in the list established in accordance with Article 59 (1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 % by weight.

Other information

No data.

Section 12: Ecological information

12.1 Toxicity

Toxicity of components

hexaboron dizinc undecaoxide [CAS 12767-90-7]

Toxicity for fish LC<sub>50</sub> (*Oncorhynchus mykiss*) 2.4 mg/l/96 h

Toxicity for daphnia LC<sub>50</sub> (*Daphnia magna*) 76 mg/l/48 h

**Toxicity of mixture**

Product is not classified as hazardous for the environment.

**12.2 Persistence and degradability**

Not applicable to inorganic products.

**12.3 Bioaccumulative potential**

Product does not bioaccumulate.

**12.4 Mobility in soil**

Mobility of components of the mixture depends on the hydrophilic and hydrophobic properties and biotic and abiotic conditions of soil, including its structure, climatic conditions, seasons and soil organisms.

**12.5 Results of PBT and vPvB assessment**

Product does not contain ingredients, which meet criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation.

**12.6 Endocrine disrupting properties**

The product does not contain substances included in the list established in accordance with Article 59 (1) for having endocrine disrupting properties, or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1 % by weight.

**12.7 Other adverse effects**

Product is not classified as hazardous to the ozone layer.

**Section 13: Disposal considerations****13.1 Waste treatment methods**

Waste material should be stored in designated place for recycling or utilization. Waste product should be recovered or disposed of in authorized incineration plants or waste facility in accordance with local regulations.

Legal basis: Directive 2008/98/EC as amended, 94/62/EC as amended.

**Section 14: Transport information****14.1 UN number or ID number**

Not applicable. Product is not classified as dangerous during transportation.

**14.2 UN proper shipping name**

Not applicable.

**14.3 Transport hazard class(es)**

Not applicable.

**14.4 Packing group**

Not applicable.

**14.5 Environmental hazards**

Not applicable.

**14.6 Special precautions for user**

Not applicable.

**14.7 Maritime transport in bulk according to IMO instruments**

Not applicable.

## Section 15: Regulatory information

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC as amended.

Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 as amended.

European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste as amended.

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives as amended.

Regulation (EU) No 2016/425 of the European Parliament and of the Council of 9 March 2016 on personal protective equipment and repealing Council Directive 89/686/EEC.

Commission Directive 2000/39/EC of 8 June 2000 establishing a first list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

Commission Directive 2006/15/EC of 7 February 2006 establishing a second list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Directives 91/322/EEC and 2000/39/EC.

Commission Directive 2009/161/EU of 17 December 2009 establishing a third list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Commission Directive 2000/39/EC.

Commission Directive 2017/164/EU of 31 January 2017 establishing a fourth list of indicative occupational exposure limit values pursuant to Council Directive 98/24/EC, and amending Commission Directives 91/322/EEC, 2000/39/EC and 2009/161/EU.

Commission Directive 2019/1831/EU of 24 October 2019 establishing a fifth list of indicative occupational exposure limit values pursuant to Council Directive 98/24/EC and amending Commission Directive 2000/39/EC.

## 15.2 Chemical safety assessment

It is not necessary to carry out a chemical safety assessment for the mixture.

## Section 16: Other information

Full text of indicated H phrases mentioned in section 3

H319	Causes serious eye irritation.
H361d	Suspected of damaging the unborn child.
H400	Very toxic to aquatic life.
H411	Toxic to aquatic life with long lasting effects.

Abbreviations and acronyms

PBT	Persistent, Bioaccumulative and Toxic substance
vPvB	very Persistent, very Bioaccumulative substance
Aquatic Acute 1	Hazardous to the aquatic environment - Acute - category 1
Aquatic Chronic 2	Hazardous to the aquatic environment - Chronic - category 2
Eye Irrit. 2	Eye irritation - category 2
Repr. 2	Reproductive toxicity category 2

Trainings

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training.

Key literature references and data sources

This sheet was prepared on the basis of on manufacturer's data, literature data, online databases, our knowledge and experience, taking into account the current legislation.

## SAFETY DATA SHEET

### Additional information

Date of update: 25.07.2022  
Version: 2.0/EN  
Changes: sections 1-16

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field.
